Book Explorer & Reading Tracker

Pages:

- **Home:** Landing page
  - Start – Display welcome message
    – Integrate user info, display next reading, ready on holds, etc.
- **Library:** Browse books by genre, author, or popularity
- **Book Details:** Synopsis, author bio, and reviews of a single book

Design Elements:

- A cozy, bookish aesthetic with serif fonts and warm color schemes.
- Flipbook-style animations for book previews.
- Tag system for easy filtering.

API Interaction:

- **API:** Open Library

Tech Stack

- **Front End** – HTML / CSS & JS (React)
- **Back End** – NodeJS with Express
- **Database** – MongoDB with Mongoose
  – PostgreSQL
